

Pinning favourite Channels works in the same way on a desktop or mobile device and shows pinned Channels at the top of the display.

However, particularly when working on a mobile device you want to minimise the amount of scrolling or clicking to get where you want to be.

Did you know you can show your pinned Channels on the Chat pane for faster access?

There are two ways of doing this as shown in the following images.

Either way, the Chat panel will then show your pinned channels at the top for faster access when you need it.
